WHAT MAKES US UNIQUE

OUR MISSION

To dedicate ourselves to total Client Satisfaction by getting proactively involved to understand the client need & to provide an Innovative, Responsive and Smart Solution

OUR VISION

To become the most preferred consultants in the field of Sustainable Development & EHS Management Systems.

OUR GOAL

To assist organization for Continual Improvement in its overall EHS Performance to increase profitability and synergetic advantage.

HOW WE ASSIST

We adopt the PDCA approach within our organization to deliver to our clients and make sure that the deliverable are in line of the requirement of client with our "Value Add Services".

OUR SERVICES

Sustainability

We at EHS Consultants, carefully study the Environmental and Social impacts of any organization. Also study the corporate vision, mission and broad goals, if exists and then conceptualise sustainability projects to strengthen its practices. The projects which we conceptualize help corporate to create synergy between development, environmental and social fabric. We help organization to design and develop sustainability reports in line of GRI guidelines. We help in designing systems to generate a strong data base and interpretation of these data. Our training modules help Cross Functional Team to imbibe concept of Sustainability and thus help organization to foster a strong culture towards sustainability goals.

Partners and executives of our organization have very strong knowledge and skill base in the field of "Management Systems". We cater to the need and expectation of our valuable clients through our "Unique PDCA Approach" for execution of Management Systems related projects. We provide solutions for a range of ISO/BSI standards, including, but not limited to, Quality, Environment, Health and Safety, Security, Energy, Information Security, Compliance Management, Food Safety, IMS, Asset management, Business Continuity etc. We update ourselves through various International and National event /workshops/training and share our learning during project execution.

Management System Solution

Water & Waste

Our water and wastewater management team provides tailor made, energy effective and environment-friendly solutions. We not only provide Turn-Key Solutions, but also cater to the wide need of supply of units/equipments, conceptualization of treatment methods, hydrogeological studies to decide and design rainwater harvesting structure/water augmentation, O&M/AMC for water and wastewater treatment facility.

Water Management

Water and wastewater audits is our speciality and through this, we assist organization to become water neutral and water positive.

We provide our skilled services in the field of Fire Safety Management to range of organizations from small to large and from manufacturing to Service Sectors. Our services includes, in-house capacity building for fire safety management, inspection and maintenance of fire safety equipments, assistance in conducting mock drills, design and implementation of Fire Safety Systems. Our experts make sure of a robust system to manage and continually improve fire safety.

Fire Safety Mgmt.

Compliance Management

We have nearly '20 years' of rich experience and are rendering our services in the field of Compliance Management. Our services include, but not limited to, design and assistance in Compliance Management as per ISO 19600:2014, preparation of comprehensive Register of Applicable Regulations (ROR) /Applicable Legal Register (ALR) by understanding process and operations, compliance audits, assistance in maintaining compliance by routine visits and drafting reply to regulatory bodies, liaison with regulatory agencies, EHS regulations update with interpretation of obligations and also suggesting ways of compliances.

We provide skilled, competent and trained manpower in line of the requirements of any organization. We interact with the organization to understand their detailed needs and expectation and lay down a road map to achieve goals. According to the goals, we hire and depute our team. Regular training to upgrade knowledge and competence of team is a way of our management. This in fact helps in meeting changing expectation and achieving goals. Our senior management personally, monitor the progress through our own established manpower development systems. We

Manpower Deployment

do follow classical PDCA approach to satisfy ever changing needs of our clients.

Capacity Building & Contractors Training

EHS Consultants group provides a range of training. We are one among The Best "Training organization". Our trainers have vast practical knowledge. They have worked in manufacturing and service sectors organization and hence share practically workable and easy to adopt solutions. Feedback reveals that we are very professional and honest trainers who put in lots of emotion to the subject. We connect with top to

bottom stakeholder and conduct training such as "Train the Trainer", "Internal Auditors", "Behaviour Improvement", Leadership,

and Vendors Performance Improvement" in various fields.
